1 Introdução

Este documento é o resultado do processamento, através da ferramenta *GAWK*, de textos preanotados com Freeling. Efetivamente, foram usados os dois primeiros livros da saga *Harry Potter*, nomeadamente o **Harry Potter e a Pedra Filosofal** e o **Harry Potter e a Câmara dos Segredos**.
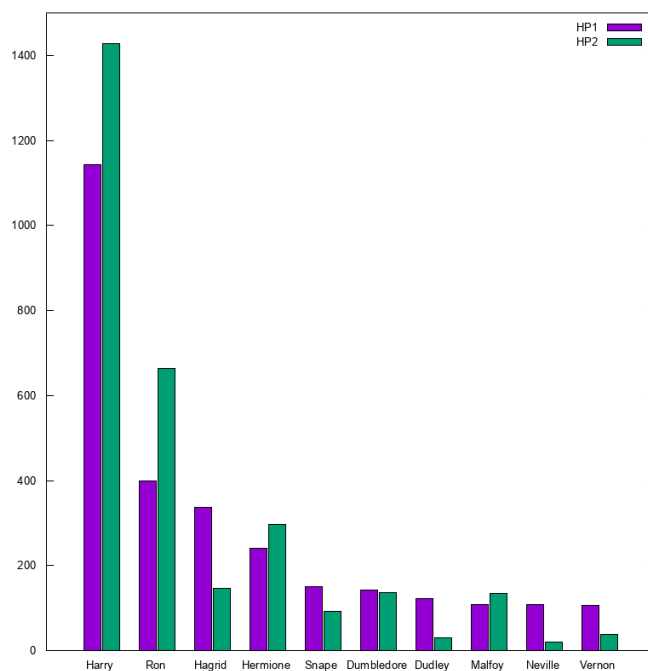

2 Número de ocorrências das personagens

Figura 1: Comparativo do número de menções das diversas personagens entre os livros "Harry Potter e a Pedra Filosofal"(HP1) e "Harry Potter e a Câmara dos Segredos"(HP2).

O comparativo presente no gráfico permite concluir informações bastantes curiosas. Nomeadamente, que a personagem *Harry Potter* é mais mencionada no segundo livro. Mais ainda no primeiro livro a personagem *Hagrid* é a terceira mais frequente, no entanto no segundo livro esta passa a ser a *Hermione*. O mesmo acontece com o *Snape* e o *Dumbledore*, respetivamente.

3 Lista das personagens presentes nos livros

A lista das personagens que se encontra nesta secção é o resultado do parse dos documentos anotados com *Freeling*. No entanto, estes documentos não estão corretos na sua totalidade e como tal existe algumas palavras na lista abaixo que não são personagens, mas que foram consideradas como nome próprio. Nestes casos torna-se impossível resolver os conflitos em questão e como tal encontram-se na lista final.
